

My husband and I adopted CoCo through a foster home that had found her at a yard sale. We drove all the way from Sacramento to Truckee to get her and she was definitely worth the drive there. When I lost my twin sister a year ago to cancer I had promised her I would take care of her Irish Setter, Honey. We became best friends until a few months later when she passed away from Sick Sinus Syndrome. I was devastated and for months all I did was cry. That was until I saw a picture of CoCo and her cute little face. I knew right then she was going to be part of our family and help me to move on with my life. We brought CoCo home only to find out her teeth were very bad and needed a deep cleaning and three extractions. Then we were told she had a slab fracture on one of her molars and the tooth needed to be removed. It had been all we could do to come up with the money for the cleaning! Thanks to Paws 4 A Cure we are now able to get CoCo's dental work she needs done. I personally would like to thank Keri Goldman, president and founder of Paws 4 A Cure, for being such a wonderful and caring person. Without her CoCo's surgery would not have been possible! Thanks also to VCA Highlands Animal Hospital for working with Keri and Paws 4 A Cure so that CoCo can get the surgery she needs to live a long and healthy life.
