

Pocket is a three year old Chihuahua, she is only 1.9 pounds. She has been with me for 6 months now. Pocket is very sweet and sleeps with me during the day. Now she has to sleep in a crate at night due to her falling off the bed that left her with broken leg. She has to stay in a small space. This is not her first broken leg her left leg was broken before I got her. Pocket is very quiet and you wouldn't know she is around expect when you are eating and she barks to get food other than that you would never know she is around. She is so sweet and is so lovable.

~Pocket's Mom
